Projects

WIP:WD dashboard
MEAN stack productivity tool projected to be a dashboard of dashboards with integrated services.

Remind Me Often
A mobile reminder application made with React Native.

ruiluis.net
A mobile-friendly website made with HTML, CSS and the Bootstrap framework; GIMP and a Canon 650D helped the process.

DominoesKotlin
A game done with Kotlin, the recommended programming language for the Android environment.

Plastic Escape
A game made in Java with SimpleGFX about a fish escaping plastic.

La Vida Loca
Front-end for a web app that gives points to users for engaging nightlife experiences.

About

Over time, I've been looking for life's many faces. I am, more than anything else, a learner. Programming thrills me. Being able to create is what I really love about reality. I really want to learn more and evolve, be it as an author of music, or a poet of code.

Experience

- Founded a team of freelance software engineers for the development of IT products.

- Training in ABAP programming for the SAP enterprise resource planning system.

- Projected and managed a music studio in which several records were produced.

Academic History

- BSc Computer Science (Current).

- 14-Week Intensive && Immersive Full-Stack Development Course.

- Jazz music.
- Piano, singing and producing.

- BSc Geology.
- MSc Economic Geology. (Attendance)

Language Skills

Achievements

- Participated as one of the eight semi-finalists of a jazz radio contest in Portugal.

- Released a 7 tracks album during a pandemic crisis, and remained alive!

- Ate a 15 cm chocolate-made Father Christmas all by himself.

Learning

Angular, Node.js, NoSQL, Express.

Skills

Java/Kotlin and Spring, Docker, Git, Linux, HTML5, CSS3, Bootstrap, React, React Native.
